**RE:** Closing and Late Start Information

---

In the event that we get as much snow as predicted, we may need to either close the center or have the center open later. If we are in a state of emergency, we will close. If we get a lot of snow we may have to open the center later. Opening the center later will give us an opportunity to properly remove the snow from the parking lots, driveway, and sidewalks.

You will find the information on the following radio stations; WLEV-FM (100.7), WCTO-FM (Cat Country 96), WODE-FM (99.9) or WEST-AM (1400). You can also check the internet at [www.wfmz.com](http://www.wfmz.com).

Thank you for your understanding and cooperation.
